Question #1 I support keeping the current boundaries of the Greenbelt in the Town of Georgina **Yes**

I highly value the improvement in daily life provided by Georgina's lake, forests, farms, greenspaces and even swampland! We have seen in recent years greed-motivated builders trying to build in sensitive areas and I have been firmly against this type of development. In the Town of Georgina, it makes financial sense to develop into spaces where there is already infrastructure established and nearby. Reducing/developing greenspace is an action that cannot be undone and I feel should be avoided at all costs.

Question #2 Do you support keeping the current environmental protection rules for the Greenbelt Plan as they apply to the Town of Georgina? **Yes**

Strict regulations are essential to safeguard our wetlands, watersheds, forests, and agricultural lands from ecological degradation and urban sprawl. Protecting these lands ensures clean drinking water, preserves biodiversity, and maintains the natural character and resilience of the Town of Georgina for generations to come.

Question #3 Should some of the LSCP's existing walking trails be upgraded so that the public can have safe and environmentally appropriate access to its provincially significant wetlands and old growth forests? **Yes**

I have enjoyed many of LSCP's existing walking trails and cursed the times when I got a soaked/muddy foot! As our population increases, we run more of a risk of causing damage due to wear and tear. I support maintenance of the trails.

Thank you for the opportunity to state my position.
